

Give Helpfully

Give Helpfully This Winter

After a very wet summer, the Hub's stock of essential items has dwindled, and demand for certain items is rising. This winter, Manchester's pioneering Street Engagement Hub invites you to help with an initiative that provides real support to those in need. By donating items that are in high demand, you can make a meaningful difference.

Give Helpfully - what does it mean

Giving helpfully is all about donating items that will make a direct difference to those in need of them.

For example, not just having a 'wardrobe clear-out' but consciously contributing what the experts know is in high demand. People arriving at The Hub, particularly from the street community, often have limited access to clean clothes.

Offering some dignity is key to the success of the Hub's work. Providing individuals with what they genuinely need builds trust, confidence, and is core to our city's values.
